## Colliery Explosion Kills Four Hundred Welsh Miners Today

OF MINE AT CARDIFF WHEN EXPLOSION SHATTERS ENTIRE INTERIOR.

#### RESCUE FIVE HUNDRED La Touraine Reaches Havre and De-

Managers Despair of Saving Others When Fire Cuts Off Progress of Rescue Parties-Police Guard Entrance to Shaft.

[BT ASSOCIATED PRESS.] Cardiff, Wales, Oct. 14.-More than four hundred Welsh coal miners perished, it is believed, from fire and after-damp in the Universal colliery near here today. A terrific explosion shattered the works shortly after 931 men had descended into the pit.

It was at first stated that the day shift was composed of 740 men, but later the larger figure was given out by the officials. About five hundred were brought to the surface alive by rescue parties up to noon and the managers of the mine then expressed the opinion that there was no further hope for those remaining below. No Hope for Others.

The rescued miners, the members of a life-saving gang and the officials of the mine, declared this afternoon, that they could hold out no hope for those of the miners still below.

The men brought to the surface were found on the east side of the mine where the ventilation remained fairly good. On the west side where the explosion occurred fire started and the rescue parties were unable to make any progress. The officials of the mine found it

necessary to call a detachment of police to keep back the women and children who crowded round the entrances in hope of obtaining some news of their relatives.

Most of the rescued men were suffering from burns and shocks of the effects of poisonous gas.

The Associated Press.

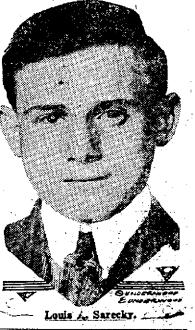

Albany, N. Y., Oct. 14.—A motion to amend Article 4 of the impeachment charges against Governor Sulzer so as to include the testimony of Ambassador Henry Morgenthau and Superintendent of Public Works Duncan W. Peck was presented by the impeachment managers at the reopening of the trial of the governor today.

today.

No action was suggested in regard to the testinony of Allen A. Ryan. It was explained that the evidence which he gave could only be considered as corroborative of other charges in the impeachment articles unless a new article should be added.

Committee of Commercial Club Solicits And Sternoon.

Amos Rehberg, Jos. Conners and Secretary F. E. Lane, a committee of the Commercial club, were engaged this afternoon in soliciting subsorbations to a fund which will be used in advertising a monster booster saie in this city in the near future. A big auto tour of the county is proposed in connection with the event.

Details would have to be done by the assembly.

Charges Set Forth.

The proposed amendment sets forth that William Sulzer "wrongfully, wilfully attempted to incite and procure Louis A. Saredrick L. Colwell, Melville D. Fuller, Duncan W. Peck and Henry Morgenthau to commit perjury and to give false testimony" before the Frawley investigating committee. Article 4 as it now stands does not mention either Peck or Morgenthau and another said committee of the Commercial club, were engaged this afternoon in soliciting subsorbations to a fund which will be used in advertising a monster booster saie in this city in the near future. A big auto tour of the county is proposed in connection with the event. Details which are now being worked out will be announced later.

testimony," of Sarecky, Colwell and Fuller.

Argues an Hour.

The proposed amendment was presented by Attorney John B. Stancheffort to prove that the court had a right to so amend the article. Judge D. Cady Herrick for the defense opposed this argument at the afternoon session.

Attorney Stanchfield emphasized stands charges Sulzer with a misdemeanor whereas he maintained the testimony of Peck and Morgenthau showed he was guilty of attempted subordination of perjury a felony.

Albany, N. Y., Oct. 14.—Indications today were that the high court of impeachment which is trying Governor Sulzer might not reach a verdict before tomorrow and possibly later.

Lengthy arguments beginning at 11:30 colock this morning dealt with the question whether the testimony of Duncan W. Peck, Allen A. Ryan, and Henry L. Morgenthau would be considered as part of Article 4 of the impeachment charges or merely as corroborative evidence and whether the testimony should be embodied in an amendment to the article. Having disposed of this question the court planned to take up the constitutional objections of counsel for the defense to the various articles. The big fight was to be made on Articles 1, 2 and 6 which virtually compose the case of the board of managers.

#### First Pictures Showing Cyclones Ravages; Work of Clearing Away Debris a Big Task

Home of Leonard McCrea at top where Mrs. McCrea was injured. What was left of barn, George Long, on the Curtis place in middle. Ruins on Arthur Jackson farm at bottom.

Town Line, Oct. 14.—The homes of Town Line, Oct. 14.—The homes of L. J. McCrea, Arthur Jackson and G. E. Long, which were wrecked in the cyclone of Friday afternoon, presented a busy scene all day Saturday and Sunday. The work is also being continued this week. Sympathetic neighbors gathered at the homes and willing hands did all in their power to clear the debris and recover all that could be made of use. At the Jackson bome the carpets and rugs were taken from the overturned floors and spread to dry, but this home presents a sorry spectacle as everything was broken, torn and twisted and very little can ever he used. The beautiful \$500 piano is marred and racked and whitened by the water which fell upon it. Very few of the timbers of the house can be used in rebuilding as they are badly broken. Some of the timbers were carried clear to the river. A pair of trousers were found across the river, which were blown from the Jackson bome. A handsome dress of Mrs. Jackson's was cut full of fine holes as though done with glass. Many freakish things were noticed about the wreck. The large sideboard was smashed into small nieces, yet the glass in it was found unbroken. In hoth cases, at the McCrea home and the Jackson place, had the families been in the cellars they would probably have been unburt as the houses blew entirely clear of the founda-J. McCrea, Arthur Jackson and G.

. Jackson was closing a bed-window on the northeast cor-f the first story, when she room window on the northeast corner of the first story, when she turned to see the parlor wall coming toward her and next found herself pinned beneath the wreckage, white the cookstove, with a pie in it, was tipped over near her head. Frompt action on the part of Frank Schooff in putting out the fire undoubtedly saved her life. Little Mary Jackson, two years old, who was playing in the upner hall crawled out on ton of the ruins crying, with her face had by bruised. Mr. Jackson, who was at For Dodge, lowe, in the interests of the Fairbanks Morse Mig. Co. of Beloit, arrived home Saturday night. of the Fairbanks Mores Mig. Co.. of Beloit, arrived home Saturday night. At the McCrea home men worked all day Saturday and Sanday, putting in windows in the part of the house left standing and reshingling it to protect what was saved from the storm of Friday afternoon. Besides the big barn at this place, the kitchen and woodshed were blown away, and also the north and east porches. The sitting room, parlor and bedroom and the rooms upstairs are standing, wedged against a tree and Mr. McCrea, with the willing helpers, is endeavoring to make it habitable for his family as soon as it can be placed back on the foundation again. Neighbors drew bosts and wire and shingles from Helpit Saturday and helped to rebuild the fornose set here were

way to conline the cattle.

C. E. Long on the Curtis farm, has two of his four good horses left. One was blown through the side of the barn and killed instantly and the other suffered a broken leg and had to be killed. Mr. Curtis is a heavy loser as two large barns, a corn crib and tobacco shed were all destroyed. Both chimneys were blown off the house. The house at this place seemed to be in the center of the whirt, buildings being taken on three sides of it.

Mr. McCrea and Mr. Long both have some tornado insurance. Mr. Jackson has none. Alr. McCrea, who was the most severely injured, is resting as comfortably as can be expected and the fears which were entertained of pneumonia developing are now over. The sympathy of the community soes out to these afficied families, and the friends will gladly assist in every way they can to rebuild the homes. Hundreds of people visited the scene Saturday and

Further subscriptions have been raised to aid those who lost heaviest in the storm. More funds are needed, however, and persons desiring to contribute may pay their donations to Mr. Bladen at the Merchants and Savings bank, or to Mr. McCue at the First National bank. The list of persons who have contributed will be published in tomorrow's Gazette.

tour year old son of Vincent Carter,
is to be restored to the custody of
Mrs. Mary Grove, 326 Cherry street,
the court having found that the physical and moral welfare of the child
would be promoted by its removal
from the custody of its father, Vincent Carter and his wife, Ethel Carter.
Alva Carter was given into the

Alva Carter was given into the care of Mrs. Grove about three years ago, soon after the divorce of ms parents. Vincent Carter was married a second time, to Miss Ethel Brown, some time last mouth and obtained possession of Alva Carter. Alva Hemmens, who brought up the boy's mother, then brought action in the municipal court on September 26 to remove him from their custody, alleging that Mr. and Mrs. Vincent Carter were not fit and proper persons to care for him. Pending the trial of the action he was placed in the custody of Poormaster Asa Anhe custody of Poormaster Asa An

trial of the action he was placed in the custody of Poormaster Asa Anderson.

The father then obtained possession of his son by obtaining a writ of habbas corpus from Circuit Court Commissioner Edwn F, Carpenter and took him to Danville, Ill., where he was placed in the eare of Mr. Carter's mother, Mrs. Duckworth.

Mr. Duckworth conducts a saloon and with his wife a rooming house for men and women at which place Alva Carrer was kept. It also appears that Vincetn Carter was placed in an ornhan asylum when about six years old and that his mother did not see him until five or six years ago when with his first wife he called on her at Danville. This evidence convinced the judge that Mrs. Duckworth was not a proper person to have the custody of her grandson.

Attornevs Stanley Dunwiddie and Charlies Plerce acted as attorney for Mr. Hemmens and Edward H. Ryan appeared for Mr. Carter.

#### "OUR WIVES"

Bubbling over with fun from beginning to end the two-part Vitagraph Comedy "Our Wives," will be presented tomorrow at the Lyric. Because of her physical attractiveness and beauty, Roswell Chandler and Walter Blair have become the "angels" for Hilda Deveaux in a Comic Opera, "The Fleur De Lis." Their wives regarding their conduct as suspicious, follow them to the shore, where they have gone on very "serious business." To escape a family row by being discovered in Hilda's apartment they are shut up in trunks. They had previously determined to complete failure of the show and had written farewell notes, which are found in Hilda's apartments after the trunks had been safely shipped back to New York. There is a general report of their self-destruction and their two "widows" by means of a detective is found out by the wives of the two men that they were hidden in the two trunks. The trunks are opened. In the meantime Chandler and Blair escaped and in their stead Oscar Simbel, a German Professor, who is immediately accused of everything possible. The wives now sure that their -husbands are dead render themselves up to the comforting disposition of a newspaper reporter. The husbands, who now have their chance, come back from the adjoining room and accuse their wives of "doing things behind their backs." The wives plead for forgiveness and while they are pleading, Hilda and a troop of her girl friends come in announcing that "The Fleur De Lis" is a great success. The men get out of their predicament and everybody is reconciled.

> cornal Mind Discredited. As the attribtues of God have been analyzed to indicate the operation of the spiritual mind, so must we analyze orielly some of the charactertistics of the carnal mind, that we may thereby differentiate more accurately between them. Jealousy, for example, as characteristic of the carnal mind, is always the result of ignorance of some always the result of ignorance of some sort, and never should be indulged. It never can know the truth about anything. Again, dishonesty always bears the mark of ignorance. A dishonest man cannot know whether another man is really honest. It is langely guesswork with him. Like most sinful men, he invariably suspects others of his own baseness, often unjustly. Only an honest man can really know whether another man is honest. To illustrate: Suppose you are in need of an employe. You advertise in the morning paper, and a half dozen men of an employe. You advertise in the morning paper, and a half dozen men may respond. In looking them over, you may recognize one man in the group to be thoroughly honest. But how do you know? You may say that you can see it in his countenance. But what is it that enables you to discern the honesty expressed in a man's face. Can you describe it or tell what it looks like? Yet you are sure you can discern it; but how? Do you observe it with your eyeballs? Even our physiologies teach that it is not the eye that sees, but rather the mind back of the eye. It is not the

AND A SUCCESS

No Rubbing or Batting. Absolutely NO friction and consequently no wear on the clothes in washing them.

> does that Mean to You? Rubbing, not Wearing, Shortens the Life of Most Garments

Saves Half Your Washable Clothes from destruction every 12 months. How Much Money

Clothes have always been washed upon one of two principles either by rubbing them on a board or batting or beating them on a block, and one of the other of these principles have been adopted by means of rollers, cog wheels or plates in every washing machine that has ever been invented.

The result is just the same in either case. No matter which way the washing is done, on a board, on a block or with a machine, the clothes themselves are worn out by the rubring or pounding they receive in the washing.

The object of all this rubbing and beating is simply to force the water and soap through the goods.

The VACUUM WASHER - A NEW INVENTION, patent August 10th, 1909-forces the water and soap through the goods by compressed air and suction, and cleans perfectly all classes of washable clothes in less than half the time it takes to do it now.

We are prepared to demonstrate that the most delicate fabrice, even garments that have been worn threadbare, can be washed by this machine and not damaged in the least; It is AIR That Does the Work—Not a CLUB.

#### STUBBORN FACTS

This is absolutely the only principle on the Market today that will wash bed quilts without wadding the batting, breaking the stitches, or blurring the print of the calico. Washable Lace Goods of all kinds, from the dainty handkerchief to curtains, are

thoroughly cleaned without the slightest damage. Clothes that have become dingy from poor washings are soon restored to their origi-

It requires no bending or stooping, no severe exertion or straining of the back to

operate it. Simple as A. B. C. Hence we claim that this invention is entitled to the careful consideration of every thinking man and woman.

If you interested in a Clothes Washer that will do exactly what we claim here for this one, we ask you to take no risk. We will come to your home and show you the work free of charge. We sell a Family Right for \$3.50 and give you one washer with each Family

SEND US YOUR NAME AND ADDRESS.

#### DON'T BOIL OR RUB WOOLENS

If you are in the habit of washing wool blankets the old way you do not realize how satisfactory they can be washed at home with the new patent Vacuum Washer.

The soap and water forced through the blanket by compressed air, while cleansing thoroughly, preserves the softness and elasticity of the wool filme.

To prove how good it is for blankets, have any woolen piece carefully washed by this process. It will be found as soft and light as before and beautifully clean,

## Afternoon and Evening Dresses Which Command Attention

at \$13.50 to \$55

Now that the Fall season is here, most every lady is thinking about an Afternoon or Evening Dress.

We are prepared this season to show a wide range of styles and materials.

Some seasons it is the walst, others the sleeves, but this scason it is the skirt which establishes the date of the garment and one who sees the gowns and frocks featured here can not doubt their smartness.

The Afternoon Dresses are of Charmeuse, Crepe de Chine, Messaline and Silk Poplin.

The Evening Dresses are of fine Shadow Lace mounted over Charmeuse foundation, Chiffon, Embroidered Nets, Crepe Meteor, Etc.

Keep watch of the new designs which are displayed in our show window every week, of which there is positively but one of a kind.

Disease Mental.

Christian Science presents the understanding of the Christ law with such simplicity and accuracy that even the children and young people readily gain its spiritual meaning which liberates them from suffering and sin of every sort. That is based on the recognition that disease in its cause is mental Consumption, for example, is considered by many to be an incurable disease. It is generally conceded that no known drug or medicine can heal consumption, especially in its advanced stages. Therefore the usual method of today is to resort to what is known as the nature cure: outdoor life, exercise, and pure air are resorted to in the hope of abaling the white plague, as it is called. It is moreover generally conceded that consumption is largely a consuming fear and manifestly no drug or medicine can cure fear. Physicians readily admit the element of fear in nearly all disease, especially contagion. When a frightened child rushes to the arms of its mother, she instinctively employs the proper remedy. She does not rush for a medicine bottle. Rather does she soothe and comfort the child in his fear by her tender love and nure affection. The enduring affection that a mother entertains for her child, and that wipes out her childish fears, should point us to a greater Love—even the God who is Love. The Bible declares that "fear hath torment" but "perfect love casteth out fear." There is no known remedy for fear save only the tenderness and compassion of inselfed Love. It is that understanding of God as divine Love that enable the Christian Scientist to wine out the fear of consumption and to remove its obvision effects. On the same basis Christian Scientist to wine out the fear of consumption and to remove its nowscient scientist to wine out the fear of consumption and to remove its obvision scientist to wine out the fear of consumption is composed to the child scientist to wine out the fear of consump offects. On the same basis Christian Science heals cancers, tumors, pneumonia, locomotor ataxla, etc.,—and heals then permanently.

heals them permanently.

A Surgeon's Testimony.

The question has been frequently asked. "How can some inanimate drug know just where to go and what to do?" An eminent surgeon once said in my bearing that "No drug medicine, or physician ever healed anything." That is a remarkable statement, and might appear meaningless if uttered by some. The gentleman is, nevertheless, a practissing surgeon examining physician for a large life insurance concern, and also instructor in physiology and hygione in a well known American university. Voreover the declaration was made before a legislative committee for public health at the Massachusetts Siste House. A physician on this committee promitive challenged the declaration, whereupon the surgeon invited citations, and the comgeon invited citations, and the com-

#### The Evening Chit-Chat BY RUTH CAMERON

ESTERDAY I printed in this column the first installment of one of the finest human documents I have ever read.

It is a letter describing the home life of the kind of family America needs more than it needs anything else. Its author is the mother of eight children. Not finding it enough to do to take care this family without outside help of any kind she adopted a ninth. She is ill so young looking that she is often taken for one of her children. She lis simply but graphically how she has accomplished this miracle.

I graduated from the S. F. G. H. S. with the class of '90 and married a few months later. I have used by education to raise my family. Thanks to my good husband, who is still my lover. I have kept up my music, and singing, and lassed it along. We have six girls and three boys. My hubby and I and four big daughters belong to an Oratorio Society. The two older girls play the violin very well. One daughter is u fine planist, and all the rest sing. We have a very little "Cash" but own our own happy home, and try to live naturally, without any false airs! The girls now have their sweethearts, and when they all call at the same time, we have a very merry crowd. I wish you could know us. We have raised our family on love and have studied our youngsters ambitious for themselves. We told them when they were small that they would have to work for their education, that we would give them a Grammar School education, and what they got afterwards they must work for. One daughter is a milliner, the second worked and put herself through a shorthand school and is now a public stenographer. The third is a bookkeeper, the fourth is working as a cashier this vacation, and still going to High School tending to be a teacher. We have had ten children, two have dedy ted. Eight e thirds a dear little four-year-old, whom we have adopted. A FEW MEAT SUBSTITUTES.

For those who like to cut down the meat bills and also the heavy food during the warm weather, a few dishes like the following may be suggestive:

Spanish and Walnut Croquettes.-Rub two cupfuls of cooked squash into a saucepan, add one egg well beaten, two tablespoonfuls of melted butter, a tablespoonful of sugar, a quarter of a teaspoon of salt, four tablespoonfuls of flour and a half cup of chopped English walnuts. Form into croquettes, roll in crumbs and egg and fry in hot fat.

Tomato and Corn Pudding,--To a cupful of cooked corn add a cup of quartered tomatoes, four tablespoon-

quartered tomatoes, four tablespoonfuls of butter, four tablespoonfuls of
bread crumbs, a teaspoonful of sugar,
salt, and pepper to taste. Mix and
pour into buttered baking dish and
bake for half an hour in a moderate
oven. Serve hot in the baking dish.

Lentil Cakes.—Wash a cupful of
lentils in several waters and soak
them for twelve hours, then boil until soft but not a pulp. Drain and add
two tablespoonfuls of melted butter,
one tablespoonfuls of melted butter,
one tablespoonful of sugar, a little
salt and red pepper, the yolks of two
leggs and half a cup of nutmeats finelay chepped; make into round cakes,
lay on buttered tins and bake in a
hot oven for fifteen minutes. Serve
bot with a few nuts sprinkled over
the top. Bears may be used if len.

#### The Quickest, Simplest Cough Remedy

Easily and Cheaply Made at Home. Saves You \$2.

This plan makes a pint of cough syrup—enough to last a family a long time. You couldn't buy as much or as good cough syrup for \$2.50.

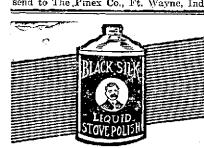

Simple as it is, it gives almost instant relief and usually conquers an ordinary cough in 24 hours. This is partly due to the fact that it is slightly lasative, stimulates the appetite and has an excellent tonic effect. It is pleasant to take—children like it. An excellent remedy, too, for whooping cough, spasmodic croup and bronchial asthma.

Mix one pint of granulated sugar with ½ pint of warm water, and stir for 2 minutes. Put 2½ ounces of Pinex (fifty cents' worth) in a pint bottle, and add the Sugar Syrun. It keeps perfectly. Take a teaspoonful every one, two or three hours.

Pine is one of the oldest and best known remedial agents for the throat membranes. Pinex is a most valuable concentrated compound of Norway white pine extract, and is rich in guaiacol and other natural healing elements. Other

pine extract, and is rich in guaracol and other natural healing elements. Other preparations will not work in this combination.

The prompt results from this mixture have endeared it to thousands of house-wives in the United States and Canada. which explains why the plan has been imitated often, but never successfully. A guaranty of absolute satisfaction, er money promptly refinded, goes with this preparation. Your druggist has Pinex, or will get it for you. If not, send to The Pinex Co., Ft. Wayne, Ind.

#### PAULIST CHORISTERS **CHARM WITH HARMONY**

Janesville Music Lovers Experience a

Rare Treat in Program Given
Last Evening.

Janesville music lovers experienced a rare treat last evening in being able to hear a program by the world famous Paulist Choristers at the Myers theatre under the auspices of Carroll Council No. 596, Knights of Columbus. Their music is of a kind seldom to be heard outside of the great cathedrals, almost never in the concert hall, and although there its almost perfect harmonies, its pureness and sweetness of tone, charm the listener, one cannot but feel that it touches its highest sublimity when resounding and echoing through the high nave and lofty aisles of a cathedral.

The Rev. Father William I Firm

The Rev. Father William J. Finn has accomplished wonders in assembling fifty voices of such singular range and sweetness and in training them to master the difficult choral selections in their repertoire. The choristers range from tiny boys whose feet barely touch the floor when they are seated, to mature men, and from voices that reach high "C" to the deepest base. All are combined in at harmony so close that at times it seems as the product of one great instrument.

strument.

The program had its due proportions of heavy and light selection, and of them classics of sacred music, oratorios, or folk songs. Opinions may differ as to the merits of any one selection but "Ave Verum," "Benedictus," "The De'il's Awa," were among those that were received with most evident appreciation. The soloists were all heartly applauded and received encores. The program was closed with singing, "Onward Christian Soldiers."

those that were received with most evident appreciation. The soloists were all heartly applauded and received encores. The program was closed with singing, "Onward Christian Soldiers."

During the intermission Principal H. C. Bueil gave a brief address on Christopher Columbus at the invitation of the Knighte of Columbus in which he stated that Columbus 10 may be as the only holiday which all the countries of the western hemisphere or could celebrate jointly.

The Knights of Columbus are to be organized in bringing the "Paulist Choristers to Janesville."

Lead to Serious Illness

If you have weak lungs, you are generally subject to colds or throat trouble
and easily susceptible to serious Lung
Trouble. In many cases pneumonla or
broughial troubles leave the lungs in a
much weakened condition. Eckman's Alterative is a medicine for the throat and
inngs which has been found to be very
beneficial, even when a change of climate
and other treatments failed to bring relief. Read of this case:—

"Gentlemen: In the fall of 1905 I contracted a very severe cold which settled
on my lungs. At last I began to raise
spotem, and my physician then tool me I
must go to California immediately. At
this time I was advised to take Eckman's
Alterative. I stayed at home and commenced taking it the last week in October. I began to improve, and the first
week in January, 1906, I resumed my regduar occupation, having gained 25 pounds,
fully restored to health. It is now seven
years since my recovery has been effected,
and I cannot praise Eckman's Alterative
too highly."

## The Auto-Biography of a Want Ad.

I was called into existence to meet the want of a houseowner that was seeking for a desirable tenant for part of his

As he would rather have the house empty than not procure a good tenant he was careful how he clothed me (with words) so as to convey this idea to the public without offense.

To say "For Rent—a house," wouldn't do at all, to say "House for Rent" was equally vague, He knew what he wanted, but to let the public know he must be rather explicit, not afraid to express his ideas in words. Consequently he made of me a "Want Ad" of fourteen lines, not the "three lines, three times" kind. I was a grown-up want ad. I said all he wanted to tell concerning his house, spoke of references, told his want explicitly,

The result was was that I was kept in the paper five nights and brought in all just 47 answers to the man's call for a desirable tenant. Now 47 people to answer one ad is some business; the man almost decided to enter the Real Estate business so fast the people followed in the wake of my insertion.

The place could have been rented the very first day, but this man had always read the want ad's and was "from Missouri" about the results being as good as the paper claimed. As the days were on-he almost were out,-taking people through the place; but he was game. He wanted to be shown

Want Ads that were in the same night he first inserted me are still running because they did not tell ANYTHING about the house. I am in the discard, but I am listed as a successful result getter-for better than a failure.

Now gentle reader you are-of course-looking for the moral? If you have a want, no matter what, if it be legitimate, it can be satisfied if you know HOW to write up your

To spend more than 25 cents for an Ad is not rank extravagance, rather it is—eventually—a good investment. Describe your place, your furniture or whatever your want embraces. It pays; it pays well,
